

**GETICA's 4th Forum on Immunotherapy & Translational Immunology of Cancer
FIT-Cancer 4
Madrid (Spain) 8-10 March 2018**

FIT-Cancer 4 is an educational program focused on facilitating the exchange of knowledge between immunologists and clinicians. The main purposes are: to enable clinicians to efficiently integrate immunotherapies into their treatment strategy for cancer patients, and to provide immunologists information on real clinical problems that could be tackled as non-clinical research.

The official language of the program is Spanish, although there will also be some English invited speakers. **Gética** is a Spanish non-profit, multi-disciplinary scientific society focused on research, education and the clinical implementation of cancer immunotherapies.

Meeting Program is available at:

<http://www.getica.org/images/icagenda/files/programa-fitcancer-iv.pdf>

Due to a **collaboration agreement between SITC and GETICA**, there is a possibility of applying for travel grants and reduced registration rates to attend **FIT-Cancer 4 in Madrid (Spain), 8-10 March 2018**.

a) SITC-Sponsored Travel Grant

- 1.- Eligibility: Any Clinician or Clinical or translational researcher in the field of immuno-oncology
- 2.- Submit an abbreviated CV (1-2 pages), letter of motivation to attend the meeting and an abstract for a poster communication to gestion@getica.org. Applications can be written in English or Spanish.
3. Deadline: 26 Feb 2018 23:59 h CET
4. Number of grants available: 2

b) Reduced Registration Rates for SITC members

Send an email to either

congreso4@grupoaran.com or gestion@getica.org

Please take in mind that most –not all - of the presentations will be given in Spanish!
